Despite his ruined name in Ukraine, Zlochevskiy is actively campaigning for public rehabilitation, particularly with us. He has been sending letters to Ambassadors Yovanovitch and Pyatt for months asserting his innocence; we have declined to get involved. I should note that there were two American members of the Burisma board: Hunter Biden and Devon Archer. Archer was recently indicted in a federal fraud case.

USAID does have small-scale (and preexisting) cooperation with Burisma, which remains a huge firm. We simply avoid meeting with its top officials.

Thanks,
