## Re: AFGHAN NEO AMCIT Contact

[REDACTED]

You guys left American citizens at the gates of the Kabul airport. Three empty jets paid for by volunteers were waiting for them. You and I talked on the phone. I told you where they were. Gave you their passport images. And my email and phone number. And you left them behind.

And this is Special Operations Command. General Milley also knew.

Great job saving yourselves. Probably get a lot of medals.
