As a company, do you think it's possible to regulate morality?

Hi Lacey,

Supporting the Equality Act is not about regulating morality. It's about supporting laws that allow our LGBTQ+ employees and guests, no matter what state they live in or fly to, to be protected against discrimination. Our values are our guide, and we strongly believe that doing the right thing and being kind-hearted require us to support this act. As we said above, we aren't the kind of company that stands by and watches – we're going to use our voice and be a leader on these issues.

We also expect our employees to live by these same values. Our differences are to be respected. As stated in our People Policies, harassment and discrimination will not be tolerated.

Thank you,
