Subject: Interest in Tunnels Leading to the US Capitol

To provide you visibility on this one, we are running this out and have updated our SSAA/HSSA partners, but there is a historical website called "WashingtonTunnels.com" that has a bunch of information, to include maps on our Capitol system tunnels. The owner of the website submitted an online tip to the FBI NTOC (National Threat Operations Center) stating that he has noticed a significant uptick in new visitors to his website. We have identified numerous open source comments indicating groups intentions of finding the tunnel entrances and confronting/blocking the MOC's. In addition, they specifically discuss attempting to get into the LOC to go to the basement and use the LOC tunnel to get to the Capitol. The website "TheDonald.Win" has been very active with promoting the photos of the tunnel system and stating their goal of finding Democratic Members early to block them from entering the Capitol.

Additionally, we have seen a huge uptick with reporting via open source of the groups intentions of forming a perimeter around the campus (indicated in image #5 above) from 0600-1000 hours in order to block all MOC's from getting inside our perimeter to the Buildings with spots identified for direct action. It's unknown if the groups will actually mobilize that early at 0600, but tomorrow is an all hands on deck for USCP and we will have additional assets to deal with any blocking of the barricades/entrances/etc. ID will continue to run out the investigative side of this and IICD is actively monitoring the information via open source.

According to Openstreetmaps, this perimeter is about 2.36 miles long, or 12460 feet. 8300 can form perimeter. We will have lots more patriots than that. We want to make sure to block all the tunnel exits in adjacent buildings to make legislators feel our support or our anger and resolve. (media.thedonald.win)

Because of the planned perimeter around the Capitol and all buildings it has access tunnels to, I have drafted this short letter to the Folger Shakespeare Library as it will be within our perimeter and they have nothing to do with our protest or the theft of the election. See OP comment for details. (media.thedonald.win)

Dear Folger Shakespeare Library and staff,

Due to a large protest around Capitol hill on Wednesday, January 6th, 2021, we will be blocking off access to your facility.

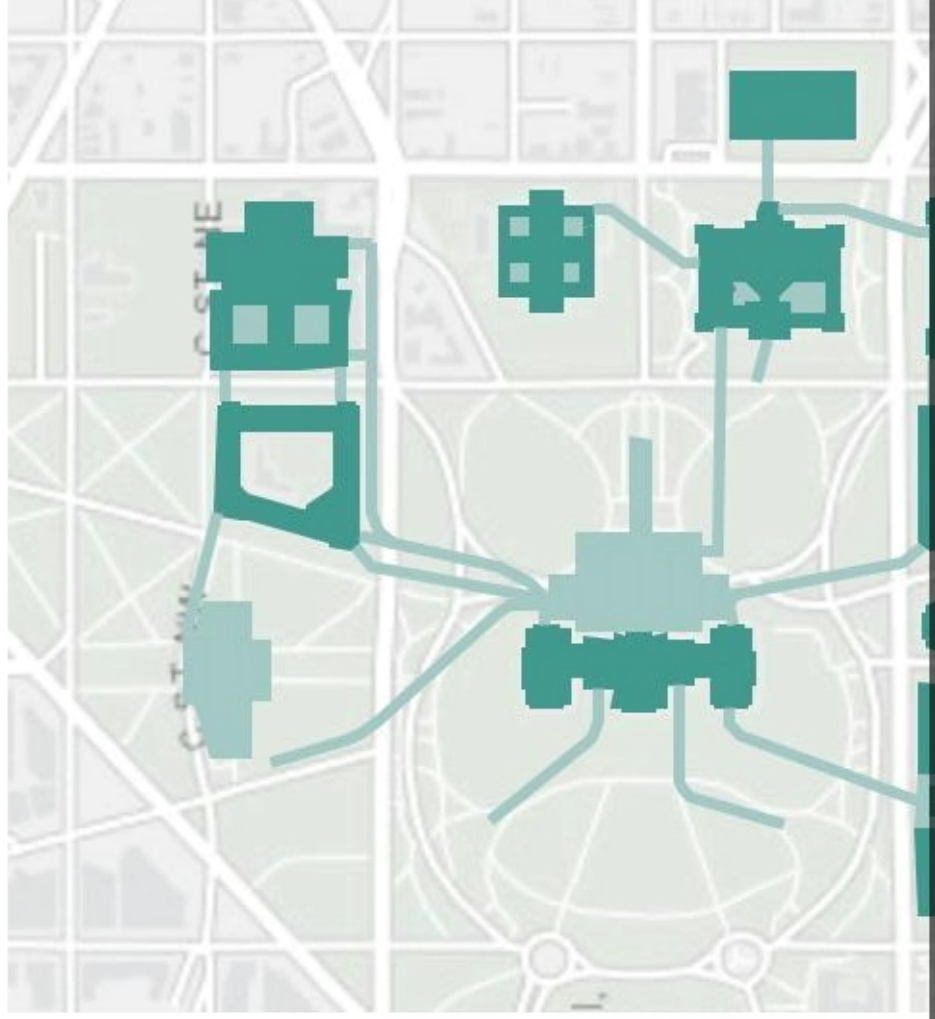

As the Legislative and Judicial branches of our government have ignored rampant voter fraud and disenfranchisement in this year's presidential election, we the people will come to set the record straight that we will not tolerate such blatant disregard for the U.S. Constitution. This protest will include a 2.4-mile blockade surrounding all buildings to which the U.S. Capitol has underground tunnels to. Unfortunately, one of these buildings is the Library of Congress's John Adams Building, to which you share a block with, and since the alleyway between the two

Profile picture of a person wearing a graduation cap and the number 3458.

There are tunnels connected to the Capitol Building! Legislators use them to avoid the press, among other things! Take note. (media.thedonald.win)

For when our elected representatives try and flee. They will emerge out of these endpoints:

<https://www.loc.gov/static/portals/visit/maps-and-floor-plans/images/campus-map.jpg>

<https://www.atlasobscura.com/places/capitol-building-tunnel-system>

Watch for disguised individuals with security details and awaiting vehicle. In Minecraft, of course.

A lot of the interconnecting Federal buildings have underground garages. Look for the big yellow vehicle barriers on the sidewalk.

You actually think any of these gubmint assholes abided by their own edicts, mandates and decrees?!?!?

When you are running a scam, you only have to do things for appearance sake which is why their "masks" constantly expose their real agenda.

They KNOW they have dumbed down nearly half the population through illegal immigration and useless propaganda filling the school curriculums.

We have way too many stupid people who don't think anything through on all sides in this country; they just react like savage mobs. Some are useful to the deep state and others aren't. That's why PIGS just harrass Trump supporters while they left antifrags and BLM destroy cities, businesses and lives.

Can't argue with that. Very disturbing.
