**DECLARATION OF SCOTT J.

PLAINTIFF DR. NAOMI WOLF’S
MOTION FOR INDICATIVE
RULING UNDER FED. R. CIV. P. 60
BASED ON NEWLY DISCOVERED
EVIDENCE**

Action Filed: July 7, 2021

JW HOWARD/ ATTORNEYS, LTD.
701 B STREET, SUITE 1725
SAN DIEGO, CALIFORNIA 92101

DECLARATION OF SCOTT J. STREET

I, Scott J. Street, declare as follows:

1. I am an attorney duly licensed to practice before all courts in the state of California and before this Court. I am of counsel with the law firm JW Howard/Attorneys, Ltd., counsel of record to Plaintiff Dr. Naomi Wolf in this matter. I have personal knowledge of the facts set forth in this declaration and could testify competently to them if called to do so.

2. This case was filed on July 7, 2021, in Florida. Dr. Wolf was not one of the initial plaintiffs. She joined a separate lawsuit filed by former President Trump against YouTube after YouTube blocked some of Trump’s content, *Donald Trump et al. v. YouTube et al.*, No. 1:21-cv-22445 (S.D. Fl.).

3. Like this one, the YouTube case was eventually transferred to the Northern District of California, but Judge White denied a motion to consolidate the cases and was considering a motion to dismiss when the Court issued its dismissal order in this case. The YouTube case has been stayed pending the outcome of the appeal in this matter.

4. Dr. Wolf did not join this case as a plaintiff until December 2021, around the time that former President Trump moved to consolidate it and the YouTube case. She was represented by former President Trump’s lawyers at the time, not me. I did not draft any of the pleadings in this case.

5. The Court dismissed this case without leave to amend on May 6, 2022. Among other things, it concluded that the amended complaint could not state a First Amendment claim against Twitter for blocking some of its users’ content, and ultimately blocking them from Twitter, because Twitter is a private company and because the amended complaint did not allege facts sufficient to hold Twitter liable under the joint state action doctrine. The Court said the complaint’s allegations, which focused on statements made by certain legislators, fell far short of “a rule of decision

JW HOWARD/ ATTORNEYS, LTD.
701 B STREET, SUITE 1725
SAN DIEGO, CALIFORNIA 92101

1 for which the State is responsible.” The decision is being appealed.

2 6. A few weeks ago, the non-profit legal group American First Legal
3 Foundation (“AFLF”) released emails it obtained from the federal government
4 pursuant to a FOIA request. Among them was an email from a CDC official named
5 Carol Crawford to a Twitter employee named Todd O’Boyle. Street Decl., Exh. A. In
6 the email, dated May 10, 2021, Ms. Crawford pointed out to Mr. O’Boyle “two issues
7 that we are seeing a great deal of misinfo about—vaccine shedding and microchips.
8 The below are just some example points.” One of the examples was a tweet written by
9 Dr. Wolf. A true and correct copy of the email exchange between Ms. Crawford and
10 Mr. O’Boyle is attached as **Exhibit “A.”**

11 7. Shortly after this email exchange, Twitter blocked the tweet from Dr.
12 Wolf that Ms. Crawford listed in her email as alleged misinformation. A true and
13 correct copy of a screenshot showing the censored tweet is attached as **Exhibit “B.”**

14 8. Additional emails obtained by AFLF refer to several “misinformation”
15 meetings taking place between executive branch officials and social media companies,
16 including Twitter, throughout 2021. True and correct copies of these emails are
17 attached as part of **Exhibit “C.”**

18 9. Conservative commentator Alex Berenson also sued Twitter after it
19 censored his posts and eventually blocked him from the platform. During that lawsuit,
20 he obtained evidence that White House officials, including White House COVID-19
21 czar Andy Slavitt, explicitly sought to censor and remove him from the social media
22 platforms. A true and correct copy of Mr. Berenson’s article describing—and in some
23 cases displaying—these emails is attached as **Exhibit “D.”**

24 10. This evidence provides the basis for Dr. Wolf’s request for relief from
25 the judgment of dismissal under Rule 60 of the Federal Rules of Civil Procedure. Dr.
26 Wolf is only seeking this relief for herself, since the released emails named her
27 specifically, so that she can have a full and fair opportunity to litigate her claims.
28

1 Under penalty of perjury, under the laws of the United States of America, I
2 declare that the foregoing is true and correct. Executed this 26th day of August 2022
3 at Pasadena, California.

Todd –

We wanted to point out two issues that we are seeing a great deal of misinfo about – vaccine shedding and microchips. The below are just some example posts. We do plan to post something shortly to address vaccine shedding and I can send that link soon. Our census team copied here, has much more info on it if needed.

Also, we are standing up a BOLO COVID misinformation meeting and inviting all tech platforms. We are shooting for 12pm EST on Friday for our first meeting. I'll include you on the invite but if you'd like to propose an alternative approach or would like to me include others, just let me know.

Thanks!

ADVISORY

Misinformation has been identified about the safety of COVID-19 vaccine ingredients.

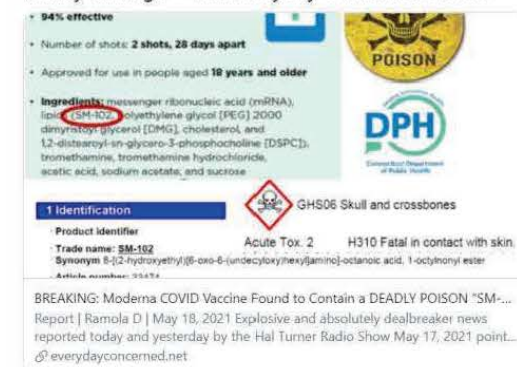

Please **Be On the Lookout** for: Statements, pictures, posts, or messages containing misinformation that the Moderna vaccine is unsafe due to the ingredient SM-102.

When	May 2021
Where	Digital Platform(s): All.
Status	Following the publication of a Moderna COVID-19 fact sheet, there have been false claims that the vaccine ingredient SM-102 listed is poisonous and unsafe for humans.
Potential Impact	Reduced vaccine acceptance.
The Facts	The manufacturing process and controls have been well characterized and qualified. The analytical procedures developed and used for the release and stability monitoring of mRNA 1273 Drug Substance (DS) and Drug Product (DP) include tests to ensure vaccine safety, identity, purity, quality, and potency.

ADVISORY

Misinformation has been identified about the COVID-19 vaccine ingredients and related side effects.

Please **Be On the Lookout** for: Statements, pictures, posts, or messages containing misleading or false information that vaccine ingredients cause vaccinated individuals to become magnetic.

When	May 2021
Where	Digital Platform(s): All.
Status	Videos shared widely on social media platforms claim to show individuals becoming “magnetic” after receiving the vaccine, further fueling the false claim that vaccines contain microchips.
Potential Impact	Reduced vaccine acceptance.
The Facts	COVID-19 vaccines are safe and effective. COVID-19 vaccines were evaluated in tens of thousands of participants in clinical trials. The vaccines met the FDA’s rigorous scientific standards for safety, effectiveness, and manufacturing quality needed to support emergency use authorization.

#magnetgate
I've seen many videos now about this. Is this bigger than we think?

THE MAGNETISM FROM THE VACCINE REPORTEDLY SPREADS THROUGHOUT THE BODY OVER TIME.

As the self-reproducing nano particles gradually take over. And metal objects as well as magnets will also stick to you. Here in Spain.

ADVISORY

A rumor has been identified regarding COVID-19 vaccines effects on male fertility.

Please **Be On the Lookout** for: Statements, pictures, posts, or messages containing misinformation that vaccines cause infertility or other fertility-related issues in men.

When	April 2021 – Present
Where	Digital Platform(s): All.
Status	Recently, social media posts have falsely speculated that men should not have unprotected sex after receiving the Pfizer COVID-19 vaccine, as the “spike protein” from the virus could allegedly damage the individual’s sperm or cause infertility.
Potential Impact	Vaccine hesitancy and reduced vaccine acceptance.
The Facts	COVID-19 vaccines are safe and effective. Millions of people in the United States have received COVID-19 vaccines under the most intense safety monitoring in U.S. history.

Absolute LIES. Women aren't ovulating, even fertility clinics are reporting embryos are not growing properly and sperm counts of vaccinated men have dropped right down. Women are experiencing the most painful periods of their life, even women who are in their 70s and 80s have started bleeding again. How dare you say its safe without actually knowing!

She also pointed out that “there is a credible reason to believe that the Covid vaccines will cross-react with the syncytin and reproductive proteins in sperm, ova, and placenta, leading to impaired fertility and impaired reproductive and gestational outcomes,” and that there are enough pregnancy losses reported thus far to warrant stopping the vaccines.

“There have been disturbing reports, ..of increased miscarriages following vaccination. I'm concerned about ... the potential of male infertility which could be permanent. ... it's merely appropriate caution given the scientific literature.”

Thank you for attending. Here are the slides. Also, as mentioned on the call, any contextual information that can be added to posts about VAERS could be very effective in education the public about what VAERS is. CDC.gov includes authoritative information about VAERS, such as the following taken from [this page](#): *"VAERS accepts reports from anyone, including patients, family members, healthcare providers and vaccine manufacturers. Where	Digital Platform(s): All.
Status	False claims that COVID-19 vaccine shedding can cause adverse effects in people who are near recently-vaccinated people have been spreading on social media.
Potential Impact	Reduced vaccine acceptance and harmful policies from real-world institutions.

Disinformation has been identified regarding a report made in the Vaccine Adverse Event Reporting System (VAERS).

Please **Be On the Lookout** for: Statements, pictures, posts, or messages containing misinformation that a 2-year-old died after receiving the vaccine.

When	May 9, 2021
Where	Digital Platform(s): All.
Status	In mid-April, a false VAERS report began spreading on social media showing that a 2-year-old had died after participating in a vaccine trial.
Potential Impact	Reduced vaccine acceptance.
The Facts	After investigation, it was determined that this report was “completely made up,” and it has been removed from the VAERS database.

ADVISORY

Potential Misinformation has been identified about the Vaccine Adverse Event Reporting System (VAERS).

Please **Be On the Lookout** for: Statements, pictures, posts, or messages containing misleading information about VAERS reports.

When	December 2020 – Present
Where	Digital Platform(s): All.
Status	Users frequently share data and reports from VAERS that may be confusing or misleading to readers without further background or context about VAERS.
Potential Impact	Reduced vaccine acceptance and confusion.
The Facts	VAERS is a passive reporting system, meaning it relies on individuals to send in reports of their experiences to CDC and FDA. VAERS is not designed to determine if a vaccine caused a health problem but is especially useful for detecting unusual or unexpected patterns of adverse event reporting that might indicate a possible safety problem with a vaccine.

Is What The CDC's VAERS Not Telling Us The Real Danger Of The COVID Jabs?
 The CDC's VAERS report has been used to gauge adverse effects and deaths from vaccines, but did you know that only roughly 1% of adverse effects and deaths occurring in the US pertaining to vaccines is actually reported? The same can be said for Europe's counterpart. could this mean that we are looking at more than 300,000 deaths in 4 months from the experimental COVID injections?

Some striking plots from the VAERS (Vaccine Adverse Event Reporting System) database.

According to VAERS, USA has had about 15 years worth of vaccine related deaths in just 4 months.

Misinformation has been identified regarding the purpose of COVID-19 vaccines.

When	December 2020 – Present
Where	Digital Platform(s): Twitter, Instagram.
Status	Conspiracy theories about the vaccine continue to spread, including that they are secretly a bioweapon or designed to control the global population. Many of these claims have been linked to Bill Gates.
Potential Impact	Reduced vaccine acceptance.
The Facts	COVID-19 vaccines are safe and effective. COVID-19 vaccines were evaluated in tens of thousands of participants in clinical trials. The vaccines met the FDA's rigorous scientific standards for safety, effectiveness, and manufacturing quality needed to support emergency use authorization.

ADVISORY

Potential misinformation may occur about COVID-19 vaccines and adolescents.

Please **Be On the Lookout** for: Statements, pictures, posts, or messages containing misinformation about the eligibility of 12- to 15-year-olds for the Pfizer/BioNTech COVID-19 vaccine.

When	May 12, 2021
Where	Digital Platform(s): All.
Status	The CDC Director adopted CDC’s Advisory Committee on Immunization Practices’ recommendation that endorsed the safety and effectiveness of the Pfizer-BioNTech COVID-19 vaccine and its use in 12- through 15-year-old adolescents. In recent weeks, there has been an increase in misinformation about adolescents taking the vaccine.
Potential Impact	Reduced vaccine acceptance.
The Facts	CDC now recommends that this vaccine be used among 12- through 15-year-old adolescents, and providers may begin vaccinating them right away.

Today, I adopted CDC’s Advisory Committee on Immunization Practices’ (ACIP) recommendation that endorsed the safety and effectiveness of the Pfizer-BioNTech COVID-19 vaccine and its use in 12- through 15-year-old adolescents. CDC now recommends that this vaccine be used among this population, and providers may begin vaccinating them right away.

Though most children with COVID-19 have mild or no symptoms, some children can get severely ill and require hospitalization. There have also been rare, tragic cases of children dying from COVID-19 and its effects, including multisystem inflammatory syndrome in children, or MIS-C.

This official CDC recommendation follows [Monday’s FDA decision to authorize emergency use of this vaccine in 12- through 15-year-old adolescents](#) , and is another important step to getting out of the COVID-19 pandemic, and closer to normalcy.

ADVISORY

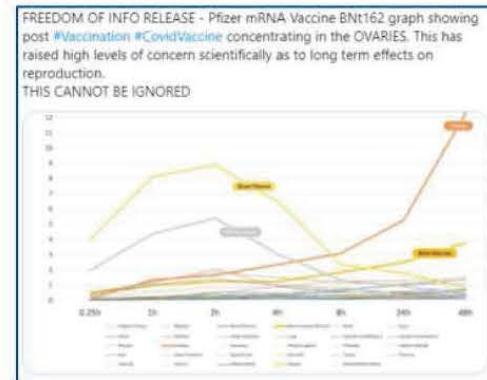

Misinformation has been identified about the safety of COVID-19 vaccine ingredients. Please Be On the Lookout for: Statements, pictures, posts, or messages containing misinformation that spike proteins from vaccines have an effect on fertility or other harmful effects.

When	Early June 2021
Where	Digital Platform(s): Twitter.
Status	There has been an increase in speculation that spike proteins from the vaccine are harmful, including citing a “study” showing that COVID-19 vaccine particles accumulate in ovaries. This has been used to falsely claim that the vaccines will impact fertility.
Potential Impact	Reduced vaccine acceptance.
The Facts	There is currently no evidence that COVID-19 vaccination causes any problems with pregnancy, including the development of the placenta. In addition, there is no evidence that fertility problems are a side effect of any vaccine, including COVID-19 vaccines.

Leaked Pfizer study shows vaccine particles sequestering in OVARIES.
Those who survive the injection will probably be left infertile..

ADVISORY

Misinformation has been identified about the COVID-19 vaccine ingredients and related side effects. Please Be On the Lookout for: Statements, pictures, posts, or messages containing misleading or false information that vaccine ingredients cause vaccinated individuals to become magnetic.

When	May 2021 – Present
Where	Digital Platform(s): All.
Status	There continue to be videos shared widely on social media platforms claim to show individuals becoming “magnetic” after receiving the vaccine, further fueling the false claim that vaccines contain microchips.
Potential Impact	Reduced vaccine acceptance and spread in real-world spaces.
The Facts	Receiving a COVID-19 vaccine will not make you magnetic, including at the site of vaccination which is usually your arm. COVID-19 vaccines do not contain ingredients that can produce an electromagnetic field at the site of your injection.

Dr says that MAGNETISM is INTENTIONALLY ADDED TO 'VACCINE' TO FORCE MRNA THROUGH ENTIRE BODY

ADVISORY

Misinformation has been identified about risks for individuals who have received the COVID-19 vaccine. Please Be On the Lookout for: Statements, pictures, posts, or messages containing misleading or false information that vaccinated individuals cannot travel via airplane.

When	June 2021
Where	Digital Platform(s): Twitter, Facebook, TikTok, Telegram
Status	There have been claims that because of a risk of blood clots, airlines are not allowing vaccinated individuals to travel or are discussing a potential ban.
Potential Impact	Reduced vaccine acceptance and confusion.
The Facts	CDC recommends to delay travel until fully vaccinated. Not related to the COVID-19 pandemic, airplane travel, especially flights longer than 4 hours, may increase the risk for blood clots, including deep vein thrombosis and pulmonary embolism.

Airlines Are Addressing the Problem Of Blood Clots And Recommending Vaccinated People Not To Travel.

Exhibit “D”

The White House privately demanded Twitter ban me months before the company did so

Federal officials targeted me specifically; when they met with Twitter in April 2021, "they really wanted to know about Alex Berenson"

Alex Berenson

Aug 12

Biden Administration officials asked Twitter to ban me because of my tweets questioning the Covid vaccines, even as company employees believed I had followed Twitter's rules, internal Twitter communications reveal.

In a White House meeting in April 2021, four months before Twitter suspended my account, the company faced "one really tough question about why Alex Berenson hasn't been kicked off from the platform," a Twitter employee wrote.

The employee recounted the meeting discussion afterwards on Twitter's internal Slack messaging system. The message, and others, make clear that top federal officials targeted me specifically, potentially violating my basic First Amendment right to free speech.

The First Amendment does not apply to private companies like Twitter. But if the companies are acting on behalf of the federal government they can become "state actors" that must allow free speech and debate, just as the government does.

Previous efforts to file state action lawsuits against the government and social media companies for working together to ban users have failed. Courts have universally held that people who have been banned have not shown the specific demands from government officials that are necessary to support state action claims.

—

(Support freedom of speech!)

—

In my case, though, federal officials appear to have gone far beyond generically encouraging Twitter to support Covid vaccines or discourage “misinformation” (i.e. information that the government does not like).

Instead, top officials targeted me personally.

Andrew Slavitt, senior advisor to President Biden’s Covid response team, complained specifically about me, according to a Twitter employee in another Slack conversation discussing the White House meeting.

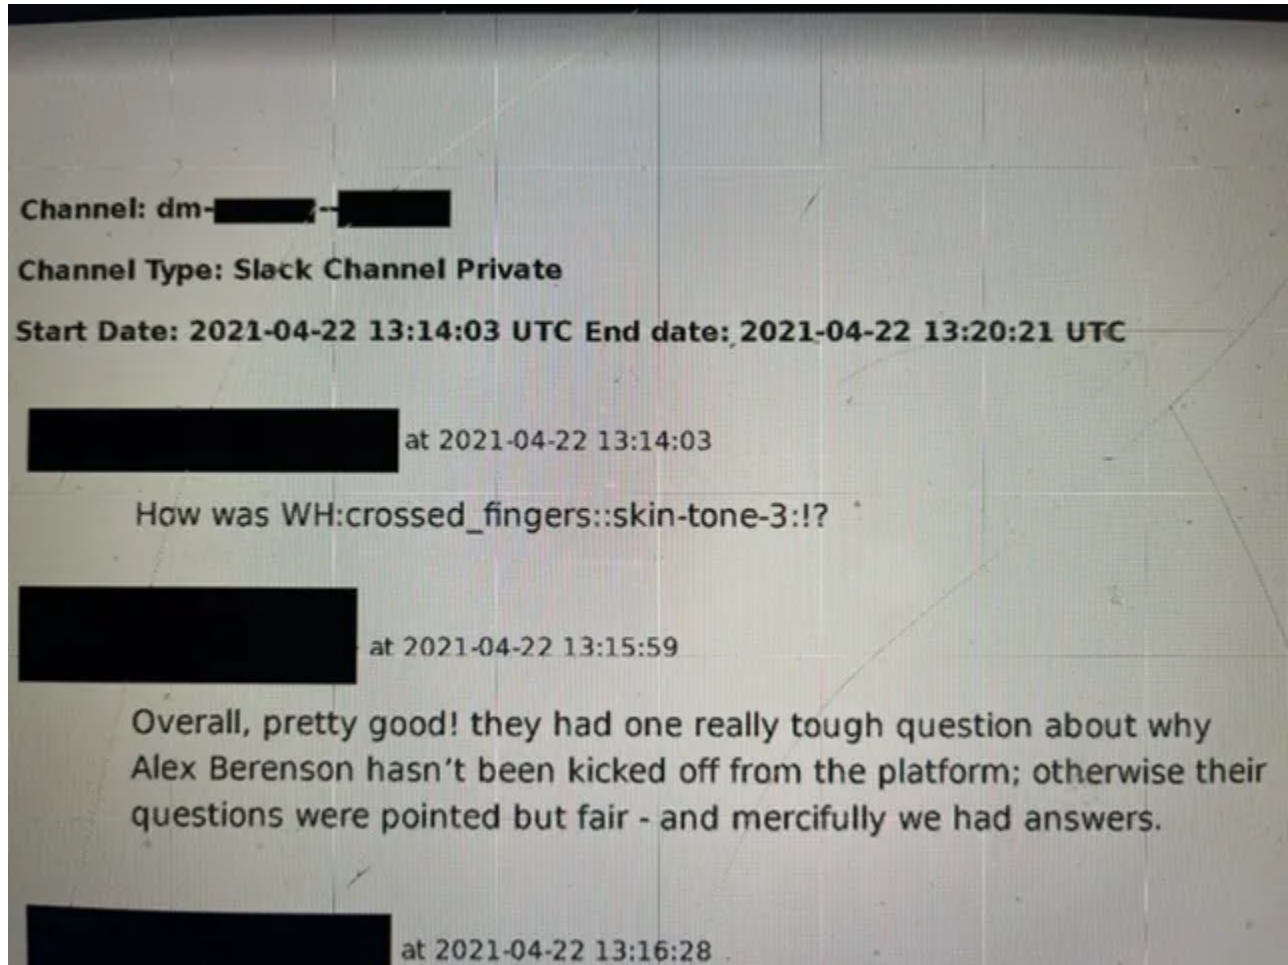

“They really wanted to know about Alex Berenson,” the employee wrote. “Andy Slavitt suggested they had seen data viz [visualization] that had showed he was the epicenter of disinfo that radiated outwards to the persuadable public.”

According to an interview he gave to the Washington Post in June 2021, Slavitt worked directly with the most powerful officials in the federal government, including Ron Klain, President Biden’s chief of staff, and Biden himself.

The Slack conversations also show the pressure Twitter employees felt internally to respond to the government’s questions about whether the company was doing enough to suppress “misinformation” about Covid and the vaccines. An employee writes that the questions at the meeting were “pointed” but “mercifully, we had answers.”

—

(From Twitter’s internal Slack channel)

At the time, employees said internally they did not believe I had broken the company’s rules. “I’ve taken a pretty close look at his account and I don’t think any of it’s violative,” an employee wrote on the Slack conversation a few minutes after the "really tough question about why Alex Berenson hasn’t been kicked off.”

But the pressure on Twitter to take action against me and other mRNA vaccine skeptics steadily increased after that April meeting, and especially in July and August, as the government began to consider the unprecedented step of mandating Covid vaccines for adults.

On July 16, 2021, President Biden complained publicly that social media companies were “killing people” by encouraging vaccine hesitancy. A few hours after Biden’s comment, Twitter suspended my account for the first time.

On August 28, 2021, barely four months after the meeting, Twitter banned me - for a tweet that it has now acknowledged “should not have led to my suspension.”

I obtained the message and other documents related to Twitter’s censorship of me as part of my lawsuit against Twitter over my August 2021 ban. I filed the suit in federal court in San Francisco in December 2021. Twitter and I settled it last month, when Twitter restored my account and acknowledged it had erred in banning me.

The documents contain other revelations, including emails showing that *other reporters* asked Twitter to take action against me; I will report on those in the future.

More messages, emails, and internal documents are expected.

I guess if anyone needed proof of Brandon's involvement in the suppression of free speech, you have it.
