4 In Georgia's recent elections, voter turnout was much higher than in earlier elections. However, the number of people who voted by mail was much lower. The number of people who voted in person was up. Is it good for America or bad for America to have more people vote in person and fewer vote by mail?*

- 53% Good for America
- 9% Bad for America
- 28% Doesn't matter
- 10% Not sure

Scott Rasmussen National Survey of 1,200 Registered Voters Conducted December 8-9, 2022

5* *In many states, drop boxes are provided to make it easier for people to vote. Do you favor or oppose providing more drop boxes prior to general elections?*

25%	Strongly favor
28%	Somewhat favor
17%	Somewhat oppose
21%	Strongly oppose
10%	Not sure

6* *Should drop boxes be available only in places and times where they can be supervised and have video surveillance? Or, should unsupervised drop boxes be allowed?*

76%	Only supervised and with video surveillance
11%	Unsupervised should be allowed
13%	Not sure

7* *Suppose Donald Trump and Joe Biden both run for president in 2024. If Donald Trump is declared the winner of a close election with some contested states, should Joe Biden do everything within his power to prevent Trump from becoming president again?*

29%	Yes
56%	No
16%	Not sure

8* *[if yes to question 7] Is it more important to strictly follow the laws and procedures or to prevent Donald Trump from becoming president again?*

52%	Strictly follow laws and procedures
45%	Prevent Donald Trump from becoming president again
3%	Not sure

Scott Rasmussen National Survey of 1,200 Registered Voters Conducted December 8-9, 2022

Methodology

This Counterpolling™ survey of 1,200 Registered Voters was conducted online by Scott Rasmussen on December 8-9, 2022. Field work for the survey was conducted by RMG Research, Inc. Certain quotas were applied, and the sample was lightly weighted by geography, gender, age, race, education, internet usage, and political party to reasonably reflect the nation's population of Registered Voters. Other variables were reviewed to ensure that the final sample is representative of that population.

The margin of sampling error for the full sample is +/- 2.8 percentage points.

This survey was paid for by RMG Research, Inc. as part of the service provided for our Gold Circle Members.
