Constance,

If there are any that are truly missing information and require them to be opened, I can connect with Vanessa and return them so the missing information can be filled out by your team. Then we'll finish processing.

At this time, we are still assessing. This may not be needed.

I'll keep you informed.

Thanks,

-G

It is your call how you want to handle the provisional ballots.

Thanks,  
Constance

Constance,

The 11 from Vote Center 36 were all non-registered voters, which is odd, usually there's at least a few address changes which made it look like we were missing information. In reality, there's no information because all 11 aren't in our system. So it'll be a moot point, unless we can determine a voter registration should've existed. In that case, the ballot information would be missing.

The issue is that we're not normally in possession of the Provisional Ballots and my team is very opposed to opening them.

Again, we're still going through our initial review and 1<sup>st</sup> checks.

Thanks for your quick response.

-Gabriella

Good morning Gabriella,

I do not understand your question.

Constance,

We have 11 Provisional Ballots from Vote Center 36 that have no accompanying Tenex data at all. We are not able to see which ballots they were issued, stripes, and there are no receipts.

We are treating the Provisional Ballots the same way we would be treating regular Early Ballots, so we are not opening them. Let me know if you'd like them back for preparation.

-Gabriella
