

Friends,

The course of history has brought us to a crossroads—either we will embrace a new vision and plan for victory for the future of our Republican Party, or we will remain idle and allow complacency to guide us.

The Republican Party needs new leadership. While I appreciate the work that Ronna McDaniel has done during her tenure as RNC Chair, it's time for a leader willing and equipped to prevail in the fight against the radical left. That leader is Harmeet Dhillon.

Harmeet has a long and distinguished record as a nationally recognized constitutional and election law attorney and conservative movement activist who has successfully fought on behalf of party committees and Republican candidates, even when the RNC would not. She fearlessly uses her talents, time, and energy to go on offense against the progressives seeking to destroy our great nation. Harmeet has the energy and bold vision to set the Republican Party on a course for victory in 2024 and beyond.

We do not have the luxury of complacency at this critical juncture. Now is the time to support a bold new vision for the future.

I hope you will join me in my support for Harmeet Dhillon for RNC Chair.

Sincerely,
Dick Uihlein
